

**The Council aims to give equal access to everyone and will make reasonable adjustments to meet the needs of disabled members of the public who wish to attend any meeting.** There is lift access to all meeting rooms. To assist those who have a hearing impairment, there is an induction loop facility in the Council Chamber and a portable induction loop system is available for other meeting rooms. If sufficient notice is given, we may be able to arrange British Sign Language interpretation or preferred method of communication. If you have any concerns regarding access and facilities, please contact the Council's Access Officer on 01234 718565 or textphone 01234 718828.
