

ELECTRIC VEHICLE CHARGE POINTS

ON A MISSION TO
CREATE **CLEANER,**
QUIETER STREETS

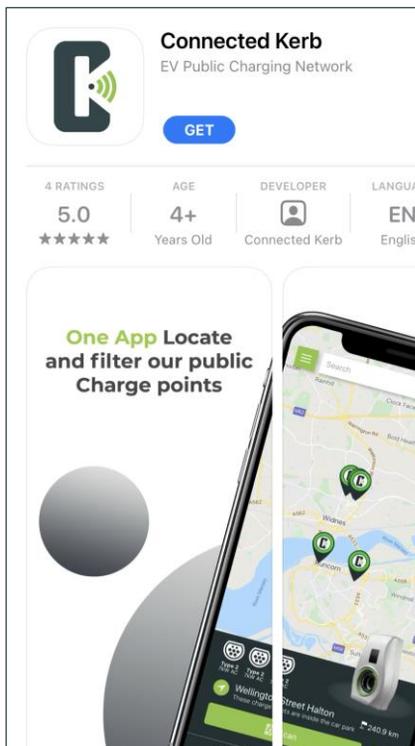

COMING SOON

NEAR YOU!

Bedford Borough Council and electric vehicle charging provider, Connected Kerb, will be installing new public charging points on your street from **late February**.

HOW TO CHARGE YOUR EV

1. Download the Connected Kerb App

Available on:

2. Find the nearest charge point

By typing in "Bedford".

3. Start charge

Simple. **Only £0.24 per kWh**

ELECTRIFYING YOUR STREETS

These installations are part of the Council's ongoing efforts to support Bedford Borough's transition to **greener** transport while working to improve local air quality.

Our aspiration is that all residents who drive electric vehicles (EVs), or are considering making the switch, have **convenient** access to EV charging.

We do not plan to change existing parking restrictions to EV-only but will **monitor** the availability of spaces as the project develops.

We do apologise for any disruption that installation may cause. We will be **engaging** further with residents very soon.

SPECIAL OFFER FOR BEDFORD BOROUGH!

Want to try an **EV** without the commitment of buying or leasing? We've teamed up with **elmo drive** to give you **£95 off** an all-inclusive, month-to-month subscription with this exclusive code:

CKBEDFORD

Everything you need to know can be found at www.elmodrive.com/connected-kerb-bedford

FUTURE EV OWNERS, DID YOU KNOW THAT...

- 1 You can **save 50% on maintenance and repair bills** 

EVs have only 20 moving parts vs. 2,000+ in a petrol or diesel car

- 2  Charging an EV is **3 times cheaper** than petrol

- 3 You can save **660kg of carbon emissions a year**

That's

84k smartphones charged!

- 4 The **average** battery range today is over **200 miles**

That's like commuting from Bedford to Brighton and back on a single charge!
