1. INTRODUCTION

- 1.1 Local planning authorities are required to prepare a Local Development Scheme (LDS). The scheme is a public statement which sets out the programme for the production of Local Development Documents (LDDs).
- 1.2 This 2020 review of the LDS is required primarily to reflect the adoption of Local Plan 2030 and provide the timetable for the preparation of the new local plan. It replaces the LDS adopted in May 2018 and will be reviewed as frequently as is necessary to ensure that it is kept up to date.
- 1.3 The LDS is available for inspection at the Customer Service Centre, 2 Horne Lane, Bedford, MK40 1RA during normal office hours and via the Council's website at [Local Development Scheme](#)

NATIONAL POLICY

THE LOCALISM ACT 2011

- 1.4 The Localism Act introduced new rights and powers to allow local communities to shape new development by working together to prepare neighbourhood development plans . These may be taken forward either by town and parish Councils or by neighbourhood forums.
- 1.5 Neighbourhood Plans are a powerful tool for shaping the development and growth of a local area. They should not just re- state the Council's plan but set out the community's views on the development and use of land in their neighbourhood. The Localism Act includes a "basic condition" that requires neighbourhood plans to be in general conformity with the strategic policies of the local plan.
- 1.6 Unlike many of the parish, village or town plans produced in the past, a neighbourhood plan becomes a formal part of the planning system. Neighbourhood plans form part of the development plan and sit alongside documents adopted by the local authority. Planning applications will need to be decided against the Council's plans, adopted neighbourhood plans and any other material considerations.
- 1.7 In another important change to the planning system, communities can use neighbourhood planning to permit the development they want to see-in full or in outline, without the need for planning applications. This can be achieved through the preparation of 'neighbourhood development orders'.

- 1.8 The borough council will continue to produce local plan(s) that set the strategic context within which neighbourhood development plans sit and will provide information about neighbourhood planning to help local groups decide whether they want to take advantage of their new planning powers.
- 1.9 A number of neighbourhood plans are being progressed in the borough. Further information is available on the Council's website following this link: [Neighbourhood Planning](#)

TOWN AND COUNTRY PLANNING (LOCAL PLANNING) (ENGLAND) REGULATIONS 2012

- 1.10 Part 2 of the Planning and Compulsory Purchase Act 2004 (["the Act"](#)) establishes a system of local development planning in England and the [2012 Regulations](#) update provision for the operation of that system.

THE NATIONAL PLANNING POLICY FRAMEWORK 2019

- 1.11 In addition to these two pieces of legislation, the National Planning Policy Framework ([NPPF](#)) was first published in March 2012 and updated in 2018 and 2019. Planning law requires that applications for planning permission must be determined in accordance with the development plan unless material considerations indicate otherwise. The NPPF does not change the statutory status of the development plan as the starting point for decision making. The NPPF is however a material consideration and must be taken into account in the decision making process.
- 1.12 It is the Council's view that the overall strategy of these adopted plans is consistent with the NPPF. The Allocations and Designations Local Plan was examined and adopted in 2013 so its policies post-date the introduction of and have been found to be consistent with the NPPF. The Local Plan 2030 was adopted in January 2020.

THE NATIONAL PLANNING PRACTICE GUIDANCE

- 1.13 On 6 March 2014 the Department for Communities and Local Government (DCLG) launched the [planning practice guidance web-based resource \(PPG\)](#). This was accompanied by a [Written Ministerial Statement](#) which includes a list of the previous planning practice guidance documents cancelled when this site was launched. The PPG is continually updated.

2. THE DEVELOPMENT PLAN

- 2.1 When determining planning applications the decision shall be in accordance with the development plan unless material considerations indicate otherwise. The statutory development plan for the borough is currently made up of the following documents
- [Local Plan 2030 \(adopted 2020\) policies](#)
 - [Saved Local Plan 2002 policies.](#)
 - [Saved Minerals and Waste Local Plan 2005 policies.](#)
 - Continuing policies in [the Allocations & Designations Local Plan \(adopted 2013\)](#)
 - [The Minerals and Waste Local Plan: Strategic Sites and Policies \(adopted 2014\)](#)
- 2.2 [The Planning and Compulsory Purchase Act \(2004\)](#) provided for transitional arrangements to allow for a smooth handover between the old Local Plan system and the Local Development Framework that replaced it. The Act allowed for the policies in the existing adopted local plans to be ‘saved’ for a period of three years from commencement. The Secretary of State agreed to extend the period for which Local Plan 2002 policies are saved until such time as they are replaced. This means that relevant policies in the Local Plan 2002 are still “live” and can be afforded weight in making planning decisions.
- 2.3 Appendix 1 of this LDS lists all the saved policies in the adopted Local Plan 2002 in addition to the continuing policies in the Allocations and Designations Local Plan 2013.
- 2.4 The transitional arrangements did not allow for the formal ‘saving’ of approved supplementary planning guidance. However the Council’s adopted supplementary planning guidance will continue to be a material consideration in the determination of planning applications where it elaborates upon saved Local Plan 2002 policies. Appendix 2 sets out a schedule of current supplementary planning guidance (SPG) and includes a list of the documents that have been withdrawn and archived. Archived documents are available on the council’s webpages for reference.
- 2.5 Minerals and waste planning is dealt with on behalf of the unitary councils (Bedford Borough Council, Central Bedfordshire Council and Luton Borough Council) by a shared Minerals and Waste Service that is hosted by Central Bedfordshire Council. Following the adoption of the Minerals and Waste Local Plan: Strategic Sites and Policies (2014), the remaining saved Minerals and Waste Local Plan 2005 general and environmental policies have been reviewed as part of the Local Plan 2030 and two policies remain saved. These are included in Appendix 1.

3. STATEMENT OF COMMUNITY INVOLVEMENT

- 3.1 A revised [Statement of Community Involvement](#) was adopted on 30 October 2019. The document sets out consultation standards and the Council's approach to involving the community and stakeholders in the production of planning documents. It replaces the Statement of Community Involvement that was adopted in 2013.

4. COMMUNITY INFRASTRUCTURE LEVY

- 4.1 The introduction of a [Community Infrastructure Levy](#) was agreed and a charging schedule adopted by the Council on 5 February 2014 to be brought into effect from 1 April 2014. Related to this, a [Planning Obligations SPD](#) was adopted by the Council on 17 July 2013. The supplementary planning document sets out the approach and standards for securing and using developer contributions alongside the operation of CIL.

5. SUPPLEMENTARY PLANNING DOCUMENTS

- 5.1 Details of adopted local development documents are listed in Appendix 3. Documents under preparation and planned but not yet commenced are listed in Appendix 4.

6. POLICIES MAP

- 6.1 The Town & Country Planning (Local Planning) (England) Regulations 2012 Regulation 9 requires the local planning authority to provide a [policies map](#) illustrating geographically the application of the policies in the adopted development plan. As a result of the adoption of the Allocations & Designations Local Plan the policies map was updated in January 2014. The policies map has been updated to reflect the adoption of Local Plan 2030 and the consequential policy changes.

7. DOCUMENTS UNDER PREPARATION

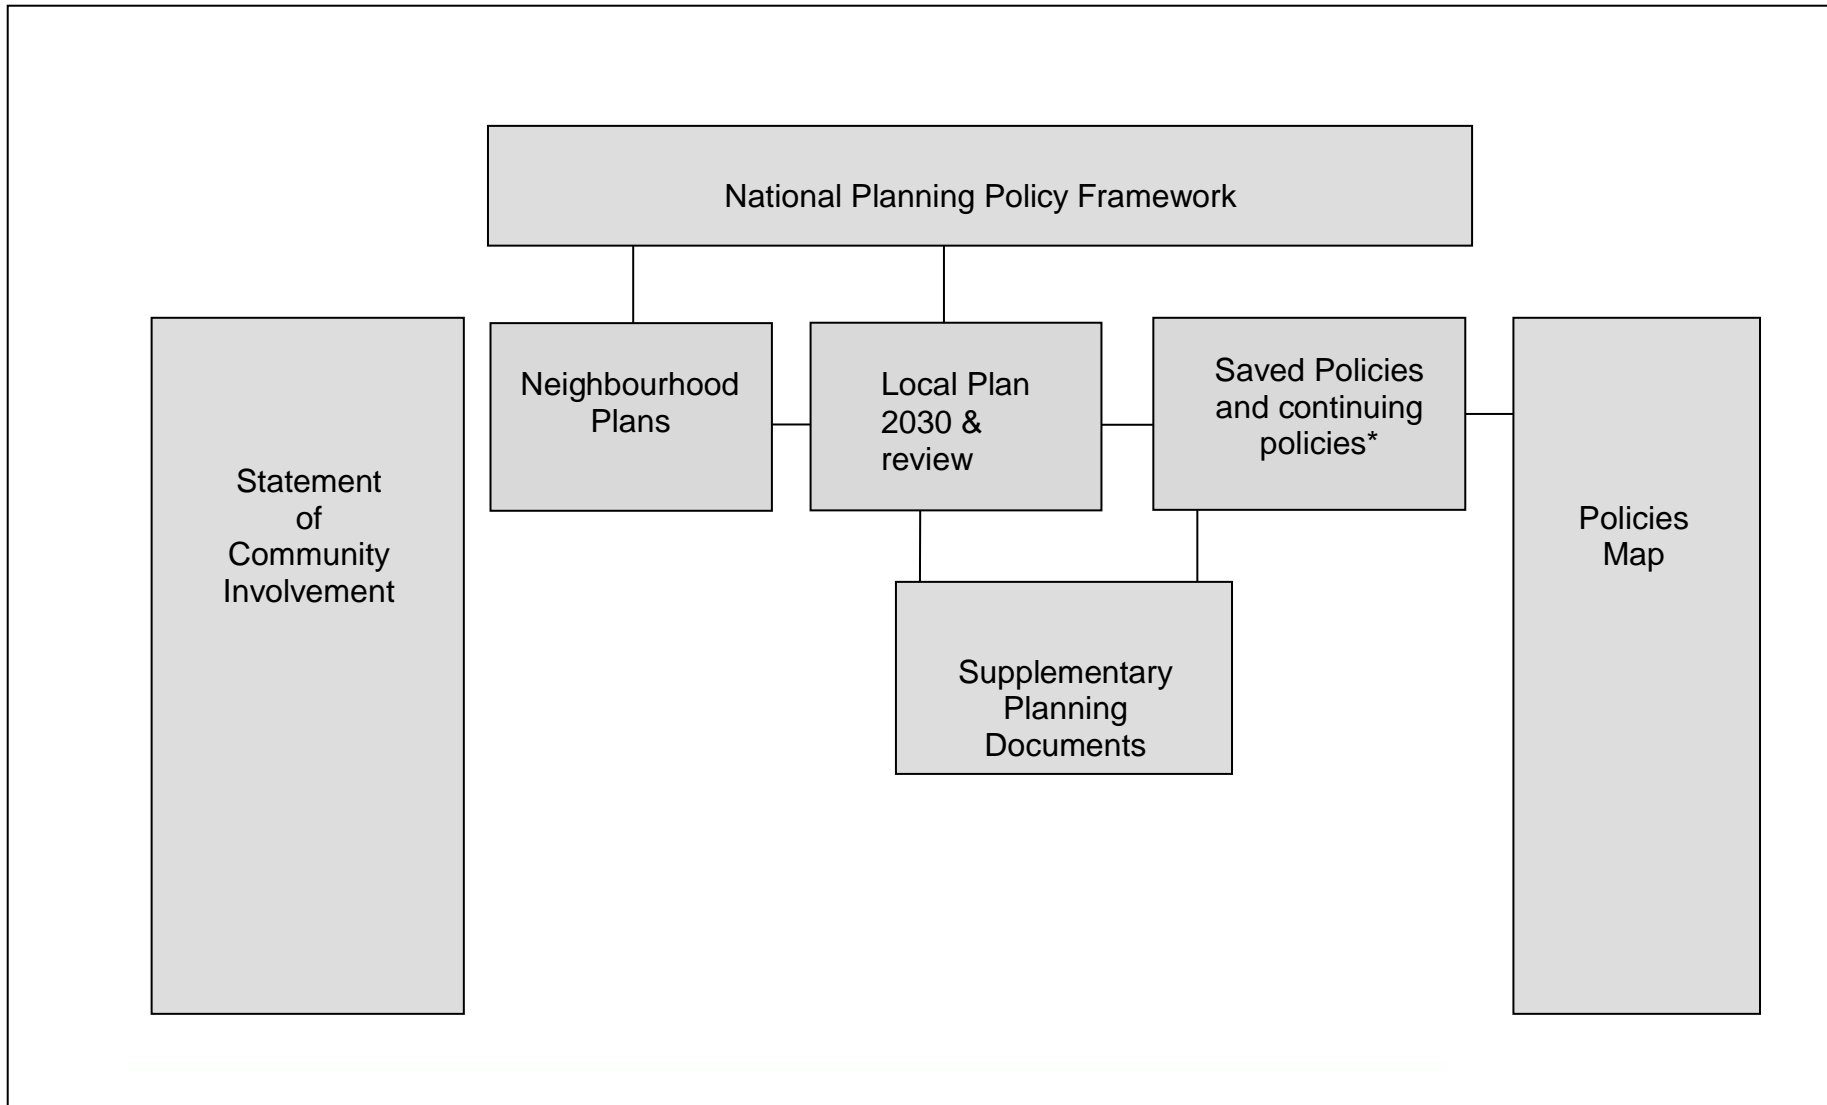

BEDFORD BOROUGH LOCAL PLAN

- 7.1 Local Plan 2030 (adopted January 2020) includes a requirement for the plan to be reviewed quickly. Policy 1 states “*The Council will undertake a review of the Local Plan 2030, which will commence no later than one year after the adoption of the plan. An updated or replacement plan will be submitted for examination no later than three years after the date of adoption of the plan...*” Preparatory work is already underway. The new local plan will apply to the whole of the local authority area. It will review the development strategy, include site allocations and review development management policies where required. Given that Local Plan 2030 has been so recently adopted it is likely that many of the policies will remain unchanged.
- 7.2 A first Issues and Options consultation is programmed to be carried out in the summer 2020 and alongside it a ‘call for sites’ exercise.
- 7.3 A timetable for the production of the new local plan is set out at Appendix 5

SUPPLEMENTARY PLANNING DOCUMENTS

- 7.4 Diagram 1 shows the documents which will provide the framework for development in the borough following the adoption of the new local plan.

DIAGRAM 1 DOCUMENTS WHICH WILL PROVIDE THE FRAMEWORK FOR DEVELOPMENT IN THE BOROUGH FOLLOWING THE ADOPTION OF THE NEW LOCAL PLAN

*Saved Local Plan 2002 and ADLP 2013 policies not replaced by policies in the Local Plan 2030 or local plan review.

8. PROJECT MANAGEMENT RESOURCES

- 8.1 The main resource for the preparation of the Local Development Documents will be the Planning Policy team along with specialist officers within the Environment Directorate, consultancy and legal advice as required. The team's top priority is the preparation of the local plan review.
- 8.2 The Council has commissioned consultants to progress development briefs and design codes for two sites: Ford End Road and Land south of the river.
- 8.3 The production of any further SPDs relating to the major sites will depend on the resources of external parties as the initial drafts are expected to be produced by consultants acting for the developers concerned with the individual sites. Council resources will also be required. It is intended that the documents would be produced on a collaborative basis.
- 8.4 The timetable provided in this document is dependent on resource being available as and when required, including those of external bodies such as the Planning Inspectorate.

9. SUSTAINABILITY APPRAISAL AND STRATEGIC ENVIRONMENTAL ASSESSMENT

- 9.1 One of the requirements of the plan-making system is to undertake a [sustainability appraisal](#) and [strategic environmental assessment](#) of Local Development Documents. This appraisal process is one which should shape the content of the documents by being undertaken at key stages in the documents' preparation. Therefore, in the preparation of Local Development Documents the Council will:
 - At the pre-production stage: carry out a scoping exercise and collect baseline information.
 - At the submission stage; make available a sustainability appraisal report, amended and updated as necessary.
 - At the examination stage; where necessary, appraise any significant changes proposed.
 - At adoption; integrate into ongoing monitoring activity.

10. MONITORING AND REVIEW

- 10.1 The Council is required to prepare a Bedford Borough Planning Monitoring Report ([BBPMR](#)) to monitor how effectively its policies and proposals are being implemented, and what action might need to be taken to address emerging issues or problems.

This includes an assessment of the level of housing completions against housing requirements. It also reports on progress being made in implementing the work programme set out in the Local Development Scheme.

- 10.2 Arising from the Bedford Borough Planning Monitoring Report, the Council will consider what changes, if any, need to be made to the Local Development Scheme. The Council will bring forward changes to the Local Development Scheme at other times in response to significant new issues or changes in circumstance.

11. EVIDENCE BASE

- 11.1 It is important that the preparation of Local Development Documents is underpinned by a strong base of evidence to inform their proposals. Each document under preparation will set out its evidence base and relevant documents will be made available on the Council's web site.

APPENDIX 6

GLOSSARY OF TERMS

Allocations Sites specifically identified on the Policies Map for development.

Core Strategy & Rural Issues Plan The long-term spatial vision and strategy for the local planning authority area, including the key strategic policies and proposals to deliver that vision. The Plan is a part of Bedford's Development Plan.

Design Codes A set of specific rules or requirements to guide the physical development of a site or place. The aim of design coding is to provide clarity as to what constitutes acceptable design quality and thereby provides a level of certainty for developers and the local community alike that can help to facilitate the delivery of good quality new development.

Designations Areas shown on the Policies Map to which specific policies apply (not allocations).

Development Briefs Prepared by the Borough Council as a detailed statement of its planning policies for a particular site and its aspirations in terms of uses, layout and design principles.

Development Plan Defined under S.38 of the Planning and Compulsory Purchase Act 2004. This is the prime consideration in the determination of planning applications. For Bedford Borough Council this is the Local Plan 2030; , the continuing policies of the Allocations and Designations Local Plan, saved policies from the Local Plan 2002. Minerals and Waste policies also form part of the development plan (see para. 2.1).

Development Plan Document (DPD) Spatial planning document prepared by the local planning authority that is subject to an independent public examination. They can cover a range of issues, and will set out the main spatial strategy, policies and proposals of the Council.

Local Development Documents (LDDs) Generic term for documents that can be included in the Development Plan and other planning documents. Collectively LDDs deliver the spatial strategy for the local planning authority area.

Local Development Framework (LDF) A portfolio of Local Development Documents that provided the framework for delivering the spatial strategy of the area. From 2012 the term Local Development Framework is no longer used. The portfolio of documents will normally be replaced by one document known as a Local Plan.

Local Development Scheme (LDS) Rolling three-year project plan for the preparation of Local Development Documents.

Localism Act Gives more power and responsibility to neighbourhoods and local community groups. It also proposed the revocation of regional planning guidance.

Local Plan 2002 Statutory district-wide document prepared pre 2004 that sets out land use policies and proposals for the area.

Local Plan Since 2012, the term 'Local Plan' is once again used (replacing LDFs) to describe the document containing the Council's land use policies and proposals.

National Planning Policy Framework National planning policy which replaced all PPGs and PPSs in one document.

Neighbourhood Development Plan A plan prepared by a Parish Council or Neighbourhood Forum for a particular neighbourhood area (made under the Planning and Compulsory Purchase Act 2004).

Policies Map Illustrates policies and proposals in local development documents.

Statement of Community Involvement (SCI) Sets out the approach of the authority to involving the community in the preparation, alteration and review of Local Development Documents and in the consideration of significant planning applications.

Strategic Environmental Assessment (SEA) Environmental assessment of policies, plans and programmes required under the European SEA Directive 2001/42/EC.

SuDS Sustainable Drainage Systems maximise the benefits while minimising the negative impacts of surface water runoff on developments. The SuDS approach involves the management of water quantity to reduce the risk of flooding downstream and in-situ, and the reduction of pollution levels within that runoff. This is achieved by harvesting, infiltrating, slowing, storing, conveying, and treating runoff on site (preferably on the surface and not underground)

Supplementary Planning Documents (SPD) Non-statutory documents that expand upon adopted planning policies or proposals.

These replace Supplementary Planning Guidance.

Supplementary Planning Guidance (SPG) Non-statutory guidance prepared under the pre-2004 system to expand upon policies and proposals in the Local Plan 2002.

Sustainability Appraisal (SA) A social, economic and environmental appraisal of strategy, policies and proposals – required for all Development Plan Documents and, where necessary, Supplementary Planning Documents. To be undertaken jointly with Strategic Environmental Assessment.

Sustainable Community Strategy Sets out goals and aims to tackle identified pressing problems in the Borough around 7 themes: Thriving; Greener; Aspiring; Healthy; Safer: Inclusive; and Growing. The views of key stakeholders, communities and citizens have been sought to achieve a shared vision across the Borough.

APPENDIX 7

KEY CHANGES MADE TO THE LOCAL DEVELOPMENT SCHEME

The following table lists the key changes made to the Local Development Scheme 2018 and reasons for those changes.

Change	Reason
Throughout the document changes made to reflect the recent adoption of Local Plan 2030.	Factual updates.
Appendices 3 and 4 update references to refer to relevant SPD and add references to Sustainable Urban Drainage SPD	SPD is now complete.
Update Gantt chart in Appendix 5	To provide the local plan review timetable.
Removal of what was formally Diagram 1 which showed the relationships between local development documents	The diagram was unmanageable and had lost its usefulness.
